Maserati Bora Parts Interchange

The Maserati Owner's Club of North America (MOCNA) started this great idea to help other owner's find acceptable parts that replace those factory parts which are no longer available or prohibitively expensive. The Part number, Table Number, and Item Number are from the factory parts manual.

The information on this page originated with MOCNA to whom all thanks are due. The information was last updated by MOCNA in 1992 though I have started to update it where information is to hand or submitted by you. Much of the content was scanned from a many time photocopied "original" document and run through an OCR reader to get it here so there may be a few faults.

I hope eventually to put this information on a database which can be searched via this site. One difficulty is the common crossover of parts between differing models (eg, many of the V8 models share engine, transmission and suspension bits). Your thoughts on this problem are welcome.

For now, you will find all the information available, presented on this page and sorted by model. The *Italian-English* dictionary might help you translate those parts manuals!

If you can add to this list PLEASE email me with your information.

Your attention is drawn to the Important Notices governing all use of information contained within the Maserati Resource Centre.

BITURBO

Component	Part reference(s)
PLUGS	Champion N6GY or N6YC or NGK BP7.S Roman NGK BP8ES correct for three valve heads (GP)
AIR PUMP	The Air pump on an 85 Biturbo is just General Motors. I' running one from a 1980 Buick LaSabre. You want the one that says METRIC on its case for direct replacement. The English version will work if you just drill out the mounting holes
FUEL PUMP	Walbro #7509 Roman
CARBS	Weber 36 DCNVH2H for 2.5 US model Roman
WINDSHIELD WIPER	Cartridge Bosch 40 920 Roman

FUEL PUMP-	Walbro #7509 Roman
CARBS-	Weber 36 DCNVH2H for 2.5 US model Roman
CLUTCH CYLINDER	A slave clutch piston and cups from a Honda are working great in my 85 Biturbo. Don't know the Honda model/yr but the repair kit was Car Quest C7969.
LIGHTS	Early Biturbos (square headlights) used headlight units from a Volkswagen Scirocco Mk2. Front sidelights came from the Fiat 127 Mk1.
WINDSHIELD WIPER-	Cartridge Bosch 40-920 J. Roman
BRAKE PADS	Repco Metal Master 102M Rear 292M Front Deluxe D102D Rear D292D Front MB 000-420-7620 Rear BMW 34-111-119-177 Front Note: If using Repco Pads, the Deluxe pad is better for normal driving and the MetalMaster Pads are better for high performance, racing.
WINDSHIELD WIPER	Bosch 40720 (2011 blade) Osgood
CAM BOX BREATHER HOSE-	VW 171-121-611E (left & right) Osgood.
FUEL HOSE-	VW N20-281-1 (fuel injection hose 7mm) use inside plenum to carb Osciood
SHOCK ABSORBERS	Koni shock absorbers are available for all Biturbos at prices usually considerably lower than original units- eg; front struts £500 from Meridien but £190 from Koni . For the 425 model, Koni part numbers (inserts only at Front, remember) are: Front 86-2329 Rear 82-2276
EXHAUST SYSTEMS	Centre and rear silencer sections for 425, (£209.00 +VAT inc. free delivery in 1994) from Jaystock. Stainless steel replacements for all exhaust sections from Autoshield
MANIFOLD NUTS	The nuts from a Ford Cortina MkII are widely available at a fraction of the cost of the Maserati originals and fit the Biturbo exhaust and inlet manifold studs just fine. (GP)
BONNET (HOOD) STRUTS	Autozone: RB8795212 270/98 (USA)

TURBO (228 and similar)	Your first try would be Lancia that I'm sure used the IHI RHB50 series turbos in one of their small cars (Y10?), then Fiat (Uno) and Mitsubishi which I believe used them. (Einar Sjaarvik)
FOG LIGHTS (222)	For anyone who needs front fog lights for an early 90's Maserati, I have found that those on our 222SE come from a Lancia Thema. From Maserati they cost about 108ukp each, and from Lancia they are 38ukp each. Part numbers are:- o/s 82426668 n/s 82426667 (Keith Udall)
FUEL FILTER-PRIMARY	
SECONDARY	MAHLE KL24 (1986 model) Osgood
OIL DRAIN PLUG SOCKET-	Mac Tool SPS-12M (17mm 3/8 drive) Osgood
